

EXPERIENCE THE ESSENCE OF
ITALIAN CRAFTSMANSHIP

800x
1600mm

**ENDLESS
CARVING**

Instill an
**ABUNDANCE
OF LUXURY**

Experience the true aesthetic with
Endless Carving, which captivates
and enchants the interior with a
touch of design prowess.

**800x
1600mm**

**ENDLESS
CARVING**

EXPERIENCE THE GRANDEUR OF THE ENDLESS CARVING.

Turn your interior into a masterpiece with our intricately carved slabs. Measuring 800x1600mm, these slabs are designed to create a stunning visual impact. With carving running continuously through the surface on all faces, they are suitable for both small and large areas. Their impressive size allows for easy coverage, making your space a sight to behold.

**ENDLESS
CARVING**

A DIMENSIONAL MASTERPIECE WITH
PERFECTION ON ALL FRONTS.

EXCEPTIONALLY-SIZED
SLABS WITH THE INTERPLAY
OF ENDLESS CARVING.

Glazed Vitrified Tiles

Tile Body

The finest quality raw materials make up the resilient and robust tile body of Our tiles. The raw materials are ethically sourced and sustainably processed.

Engobe Layer

A highly opacious, fusible, and permeable engobe layer makes the second layer of the tiles. The layer makes the tiles highly resistant to water absorption for longevity.

High Pigment Digital Printing Ink

The surfaces get their unique and versatile properties of the design, color, and more in this stage where digital printing is done on the glaze with high pigment ink for excellent results.

Glaze Layer

A high-quality glaze coating is added to the engobe layer of the our tiles giving the tile properties of texture and shine and making them ready for design and color.

STATE-OF-THE-ART SURFACES WITH VIBRANT ATTRIBUTES.

Easy To Clean

Stain Resistant

APPLICATION AREAS

These marvelous slabs are designed to enchant and can be carefully used in a variety of spaces. They can adorn your walls and floors, encourage an artistic perspective with designed teapops, or be used to design a mall, corporate office, showroom, hotel, or residential space.

Joints

Fixing The Tile

Spacers + Laveller

Lavelling Wedges

After Lavelling Process
Leave Int For 8-10 Hrs.

Remove Wedges
Ones It Dry

Joint Grouting

Final Cleaning

Floor and Wall Installation

1. First spread the cement mixer onto the floor and wall substrate.
2. At the same time, apply the cement mixer onto the back of the slab with a tile trowel.
3. The recommended cement mixer must be spread over in one direction only.
4. Using a trowel and follow the same direction as previously applied to the back of the slab.
5. Being careful to maintain a minimum joint of 3mm.
6. Tab the slab with a rubber trowel for a complete fixing, ensuring the air is expelled. It is recommended to start from the centre of the slabs and then move towards the edges.
7. Complete the laying operations using a suitable sealant, while keeping at least a 3mm joint through the use of spacers.
8. To make this task easier, use the special device for pulling over the slabs, available in the market.
9. Levelling wedges at each linear metre of the slabs are recommended.
10. After levelling process leave it for 8-10 hours, remove wedges once it gets dry.
